I was ill and I couldn't go to work for a week. I had a sore throat, a cough and I felt exhausted. I didn't do anything special for it. I just rested, ate chicken soup, lots of fruit and drank a lot of liquids especially herbal tea for colds but I still felt bad. My grandmother had a soup recipe for cold. Surprisingly it worked after two bowls and I was feeling better just in a few days. Now I feel on the top of the world.
